

- The Arena dehumidifier is now live on NBON,
 - Wastewater Chlorination/dichlorination issued,
 - Connell Park Perimeter fencing issued by an invited tender,
 - Industrial Park sound measurement is being finalized,
 - Traffic Analysis is being finalized,
 - The scope for the Capital Asset Plan is being finalized.
- **Spring Court Sanitation upgrade** -The Canadian Housing Infrastructure Fund Application received RDC approval, and the Federal application has been completed and filed. This upgrade is a prerequisite for further development in the Woodstock area and to relieve existing deficiencies.
 - **Water Update** - The Town is collaborating with Public Health on manganese levels in the water system, which is currently reporting under the maximum level. Continuous sampling will occur to keep watch of the concentration levels, working towards reducing them to the new aesthetic levels as advised by Public Health.

By-law:

Proposed By-law– By-Law R-305, Building By-Law. The proposed by-law replaces the existing Building By-Law No. R-302, originally adopted in 2008 and subsequently amended, in order to align the Town’s recent change in planning and development services now being carried out by the Western NB Service Commission. The proposed by-law improves clarity, consistency, and administrative efficiency, while continuing to support public safety and responsible development within the Town of Woodstock.
